

Pod D Human Validation Summary (Sample Responses)

This document contains illustrative sample responses created for demonstrating a report format. They are not actual participant responses.

Participant	Preferred	Reason
P1	NOW	Future context made the explanation clearer.
P2	NOW	Revision after later events felt realistic.
P3	THEN	Preferred interpretation using only available information.
P4	NOW	Reduced uncertainty increased confidence.
P5	NOW	More complete explanation.
P6	NOW	Hindsight improved understanding.
P7	NOW	More logical overall.
P8	NOW	Additional context was useful.

Summary

Illustrative result: 7 of 8 sample participants preferred the NOW explanation because it incorporated later evidence and provided a richer interpretation. One preferred THEN because it reflected only the information available at the target date.
